## SUMMARY

---

A passionate and detail-oriented engineering student currently pursuing a Bachelor's degree. Strong foundation in programming, data structures, and software development, with a keen interest in backend technologies and web development. Eager to apply academic knowledge to real-world challenges and contribute to dynamic engineering teams through internships and projects.

## EDUCATION

---

**Sridevi Women's Engineering College**

**Oct 2022 - May 2026**

Bachelor of Technology – Information Technology

CGPA : 8.53

## EXPERIENCE

---

**Bharat Heavy Electricals Limited**

**May 2025**

Intern | Cyber Security

- Observed real-world cyber security operations and data monitoring practices.

## PROJECTS

---

**Revolutionizing Agri-Food Supply Chain Governance Using Blockchain for End-to-End Visibility and Trust**

Academic

- Studied supply-chain transparency issues in agri-food systems.
- Designed a blockchain-based traceability model using SHA-256.
- Analyzed how immutable records improve trust and accountability.
- Demonstrated improved visibility across supply chain stages.

**An Investigation of Social Media Usage and Its Impact on Students Exposure to Cyber Threats**

Academic

- Analyzed social media usage data to identify cyber threat patterns among students.
- Cleaned and processed datasets using Python.
- Built a classification model and evaluated performance using accuracy metrics.
- Achieved 85% validation accuracy and identified key threat categories.

**Build an Elderly Assistance Robot capable of Indoor Navigation to Remind Users of Medication and Detect Falls**

Self

- Build a circuit robot to assist elderly people with Arduino IDE and mobile operating.
- Integrated to notify the people in reminding the medicines, temperature, blood pressure levels using various sensors

## ACHIEVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

---

- Won first place in a college level project expo competition, competing against over 200 participants, for creating innovative and user-friendly application of tracking status of cyber threat.
- Led as Team Head in mini and major projects.
- Class Representative, Sridevi Women's Engineering College, IT dept
- Volunteer of Street Cause and Vidh Youth 4.0
- Participated in Internal Smart India Hackathon 2025 found an innovative solution for the problem "Low-Cost Decentralized Smart Air Purification & Monitoring System for Delhi-NCR" through cloud-based IoT dashboard and mobile app provide real-time AQI updates, personalized health alerts, and purifier status, while an AI/ML engine identifies major pollution sources such as vehicular emissions, stubble burning, and industrial activity.
- Hosted as Anchor in several events.
- Fond of describing human emotions with words (a storyteller)

## CERTIFICATIONS

---

- Infosys Springboard – Database Management Systems
- Infosys Springboard – HTML
- Infosys Springboard – Python Programming
- Infosys Springboard – Java
- Hacker Rank – Python for Beginners
- Step Plus – English Enhancement
- Power-BI workshop & Generative AI workshop
- Diploma in Computer Education

## SKILLS

---

- **Programming Languages:** Python Data Structures and Algorithms, Java (Basic)
- **Web Technologies:** HTML, CSS, JavaScript
- **Frame Works:** Django(basic)
- **Database Technologies:** SQL, Tableau, Power BI, Spread Sheets, MS tools
- **Concepts:** Object-Oriented Programming, Data Structures Algorithms, Data Visualization, Cloud Computing, Artificial Intelligence, Machine Learning, Computer Networks, Data Analytics, DevOps, NLP
- **Tools & Platforms:** Visual Studio Code, Git, GitHub
- **Soft Skills:** Communication Excellence, Teamwork, Leadership, Problem Solving and Critical Thinking, Time Management Adaptability
